# "THE FUTURE OF ARMY LOGISTICS"

***BG Charlie Fletcher***

***United States Army***

***Deputy G-4***

# AGENDA

- OIF Lessons
- CSS Changes
- Army Logistics Focus Areas
- Way Ahead

# OIF LESSONS

- Our Soldiers will never fail us
- Strategic Mobility is dramatically improved
- Deploy and Employ is a New Way of War

What's changed since Desert Storm?

- Stockpiles are gone
- Front lines are gone
- Joint Distribution goes to the Tactical Level

***Point: Need to Focus on "Last Tactical Mile"***

# What I Learne

- Don’t Live Better Than Those You Support
- Put Yourself Where You See the Situation
- No Log Comms = No Parts
- Limited Trucks = Limited Everything
- Trust Your Instincts
- Maintaining Standards is Tough
- CTT = Lives
- Soldiers Routinely Perform Miracles

# SUSTAINING THE FORCE: WHAT'S HAPPENING NOW?

- Supply Chain and Distribution based systems rather than tactical stockpiles
- Increased reliance on Commercial Capabilities and Contractors
- Dependence on others for Speed and Precision

***Log Culmination is now in the Warfighter Lexicon***
